

AND THE WINNER IS... ASTRO JAM

HONEY & COVID-19 CURRENT RESEARCH

"The honey bees that fetch the nectar / From the flowers to the comb / Never tire of ever buzzing to and fro / Because they take a little nip / From every flower that they sip." Mary Poppins was really onto something when she was singing about that spoonful of sugar, wasn't she?

Not only does **honey** help the medicine go down, research shows that it may also BE the medicine. It's an "effective natural therapy that can enhance our bodies natural immune response." The verdict: Honey may help **prevent and treat** COVID-19.

MENTAL HEALTH MATTERS

October 10th is World Mental Health Day, which aims to raise awareness of mental health issues around the world. "Substance Abuse: Research and Treatment" suggests that CBD could be a promising solution.

States that have implemented medical marijuana programs have seen a 25% drop in deaths by opioid overdose. Furthermore, pain patients using medical cannabis used 64% fewer opioid painkillers than those for whom a medical marijuana program was not available. **Click here to support legalization.**

Enter to Win is available to both new and existing subscribers. **Click here to play!** And stay tuned, soon you'll be able to play over and over again!

MEET ASTRO JAM!

Meet Astro Jam!! Astro Jam Hemp Flower is our NEWEST PROPRIETARY in-house bred strain! This is the one that YOU helped us name recently. We're pretty excited about it, and as it turns out... so are you!! **We sold out in less than a week!** But don't worry, we have more on the way!

Astro Jam is one of our most terpene diverse strains. You'll experience oak and "jam berry" with hints of wood, cinnamon, pine and lavender. It provides an uplifting, focused head space.

Did you know that we have an award-winning genetics program? That's right! Our hemp flower took home the Queen City Cannabis cup the past TWO years in a row?!

Our Stardust CBG and our in-house bred Electric Buffalo took home ribbons for Most Innovative, Best Alternative Strain, Best Indoor Strain, Best Terpene Profile and Fan Favorite. And we're at it again!

We have another up-and-coming new strain on the way. It's a cross between an Abacus Diesel male and a Stardust CBD female. We're expecting a stunning silver phenotype with an excellent genotypic expression of higher CBG balanced with a full cannabinoid profile. We can't wait to show her off to you!

IN THE NEWS

Queen Hemp Company Affiliates can now earn free products faster! We made some recent updates to our Affiliate Program, which means now you can earn free products faster! Our affiliates enjoy a generous 25% discount to use on their own personal orders and a 15% off code to share with their family and friends.
